

Dr Amira Aggour

M.B., B.Ch, FAFRM

Dr Amira Aggour was admitted to the Fellowship of the Australasian Faculty of Rehabilitation Medicine (FAFRM) in 2016. She then completed two years of clinical and research fellowship in Canada where she gained additional experience specifically in neurological, spasticity, spinal cord injury and multiple sclerosis rehabilitation.

Dr Aggour has vast experience in all aspects of rehabilitation medicine including geriatric, orthopaedic, pain management and general rehabilitation and regularly performs injections for various Spasticity disorders.

Dr Aggour has participated in a number of research publications and presentations.

Dr Aggour has a special interest in:

- Musculoskeletal conditions
- Neurologic conditions
- Interventional Spasticity Management through Botulinum Toxin Injection
